

SECOND'S EXTRACT for Muscular Rheumatism

WHAT THE DOCTOR SAYS:
A PROMINENT NEW YORK PHYSICIAN GIVES THIS ADVICE FOR THE CURE OF MUSCULAR RHEUMATISM:

"Be regular in your habits and drink only pure water. Take a course of cathartics. Use a course of diuretics. Carry off the wastes of your body through the kidneys. Use the frequent and gentle use of the soothing lotion. POND'S EXTRACT for such conditions, and it will promptly take out the 'poison'."

WHAT THE PATIENT SAYS:
"My wife has been afflicted with the rheumatism for the past few weeks, and the POND'S EXTRACT came and we were able to say it helped her very much."
—R. O. FISHER, Indianapolis, Ind.

TEXAS IN TYPE

TEXAS CROPS AND WEATHER.

The corn crop in the vicinity of Farmington, Grayson county, is very short, but cotton is yielding more than the people will be able to gather on account of the severity of pickers.

Good rains have fallen in the neighborhood of Hunt county, supplying the demand for stock water. Cotton is yielding much better than was anticipated. More cotton is being baled and shipped from that point than ever before.

The cotton of Bosque county is yielding fully 25 per cent more than was estimated at first.

The cotton crop is larger in Navarro than was expected. About half of the crop is yet in the field and pickers are in great demand.

The Van Alstyne News says: Mr. John Marr, who is cultivating Mr. Slaughter's farm just east of Van Alstyne, measured an acre of bottom land last Thursday, picked the open cotton on the one acre and got a big bale and thinks he will get another bale on the same acre.

An immense quantity of rain fell recently in Falls county, swelling all the creeks and filling the tanks and cisterns. The excessive rains of the past few days have hindered cotton picking in Falls county and it is feared that much of the cotton will be beaten out and lost.

The extent of the cotton yield in Grayson county this year, says the Sherman Register, is of course much in the future, but enough already developed to show that it will be largely in excess of what it was last year, in fact, has about reached that point now.

The Weatherford Constitution, in speaking of the crops in the vicinity of Mary's creek, says: Cotton picking is the order of the day and is turning out much better than was expected. Our farmers will plant a larger crop another year than ever. The acreage in wheat won't be as large as has been heretofore. Past experience has convinced the most of us that mixed crops will pay the best.

The yields and crop prospects in Matagorda county are reported to be excellent.

Cotton pickers are in great demand in Ellis county and farmers are in town daily on the lookout for them. There is much open cotton in the fields at present.

From two acres in Knox county, planted in watermelons and corn, W. L. Robinson has sold \$100 worth of melons, given away many and gathered twenty bushels of corn.

Within a radius of eight miles around Chillicothe there were about 8000 bushels of wheat sown last year, from which upwards of 104,000 bushels were harvested, and that in the same territory this year over 25,000 acres of wheat were sown, from which on the same average over 225,000 bushels will be harvested.

The Denison Herald quotes the following and adds that the most flattering inducements fail to obtain pickers: "Cotton picking is being pushed right ahead and if the pickers could only be obtained in the number desired the yield would simply be immense. If 500 more cotton pickers were in Grayson county to-day, and there is work for them, we would see at least 3000 more bales saved than will be. This is a sure crop here, at least, and good prices are being paid to pickers."

ALBANY, Oct. 10.—The next wheat harvest here is expected to be the largest ever known, as a much larger crop than ever is being sown. A great deal of attention is being turned to this industry, as it is a sure crop here and yields from fifteen to forty bushels per acre. A great many farmers are now engaged in sowing their crops and sown fields are up and coming on nicely for winter pasturage. The late rains insure a splendid growth of winter grass and stock water in abundance. The cotton crop, contrary to general expectations, will be over an average one. The crop will exceed that of last year by fully 100 per cent. The first load of pecans came in to-day and were sold for \$3.25 per bushel. The crop is considerably better than for two years past and proves a

source of handsome revenue for this section.

HENRIETTA, Oct. 10.—Large amounts of cotton are being marketed and our local buyers are paying full prices. Over 1100 bales have already been bought here; one car load of fifty-four bales was shipped here from Bellevue and brought to the top of the market. Our gin is doing a large business. Large amounts of cotton from the Indian Territory on Beaver creek is being brought here and marketed.

TEMPLE, Oct. 10.—Up to date there has been marketed in Temple 9900 bales of cotton. The receipts in the last few days have been light on account of incessant drizzling rains falling, making roads impassable to farmers having to haul their cotton eight or ten miles.

LANSFORD, Oct. 10.—About one-half of the cotton crops is in and the receipts to date amount to 2000 bales.

TEXAS SCHOOLS AND CHURCHES.

Superintendent O. H. Cooper, in commenting on the need of more and better schoolhouses in the state, says: "The value of the schoolhouses in seventy-three cities and towns in this state reported last year was about \$1,800,000, while the value of schoolhouses in 188 counties was less than \$1,200,000. The value of schoolhouses per capita of enrollment in the cities was \$35, while that of the schoolhouses in the country was only \$3. We cannot, of course, expect to supply the country with such schoolhouses as cities may build, but the difference between city and country in this respect is altogether disproportionate." Superintendent Cooper suggests that the \$1,000,000 permanent uninvested be issued in bonds for the purpose of erecting school buildings, and adds: "The bonds could be issued in no case until a favorable vote of two-thirds of the tax-paying voters had been secured. A tax of five cents on the \$100 would enable most of the school districts to build and equip a schoolhouse ranging in price from \$500 to \$1000. This plan, if it should become a law, would lead to the construction of 1000 schoolhouses in the state during the next twelve months after the enactment of the law, and would also secure such an investment of our permanent school funds as would guarantee no diminution of the available fund."

The colored people of Oakland, Colorado county, are making preparations to erect a Methodist church. The material is already on the ground.

A very fine stone church has recently been completed at Ballinger.

HENRIETTA, Oct. 10.—The location of a Baptist college is being agitated here. A large tract of land, containing forty acres, and it is thought \$20,000, will be offered for the college.

Rev. Mr. Young of the Baptist church is holding a protracted meeting, and he is having good success. Many conversions have already been made and great interest is being taken in the meetings.

The German Lutheran church is nearly completed. It is one of the neatest churches in North Texas, costing about \$2500.

There was a large attendance at the Panhandle institute here on October 8. Many teachers were in attendance and a lively interest was taken. Professor I. T. Johnson, superintendent of our city schools, was elected president for the next term, and the next session will be held in Vernon on the 23 day of January, 1891.

Bids are advertised for the erection of a bridge over Mineral creek, near Whitesboro, Grayson county. The bridge will be a seventy-four foot span with twenty-four foot piers, and the bids to be in by October 16.

ALBANY, Oct. 10.—In the election to determine whether the town of Albany should be incorporated or not, the move for incorporation was carried by a large majority on Monday last. Our citizens are fully awakened to the importance of improving the city and providing proper sanitary regulations. The principal business streets of the town have been recently graded and macadamized by private subscription, and substantial stone gutters are being laid on Main street extending through the whole of the city, which, with the good system of natural drainage, will insure one of the prettiest streets to be seen anywhere.

HENRIETTA, Oct. 10.—Our street car line has been chartered and right of way has been granted on two of our principle streets, Bridge and Main. The stockholders have met and elected the following officers: Hon. W. J. Swain, president; W. H. Childers, vice-president; W. C. Burham, secretary; P. B. Wyatt, treasurer, and F. L. Miller, general manager. Work will commence immediately and the whole line will be completed within ninety days. Home capital is turning out for this enterprise.

Parties are here from Kansas City and they have negotiated for property on which to erect a steam laundry. They will order the machinery at once and the work will be completed by November 15.

Work on the waterworks and electric light plant has stopped for a few days awaiting the arrival of some pumping and other machinery. This work will be pushed to completion as soon as the necessary machinery arrives.

TEXAS NEWS AND NOTES.

Kentucky day at the Dallas fair has been set for October 23. The cards of invitation are very timely gotten up. The committee of invitation are I. H. Crutcher, M. G. Stirmann, John Fisher, V. O. Hildreth and Y. B. Dowell.

HENRIETTA, Oct. 10.—Chilton & Burham have sold forty acres of land near their Ingleside park, and the party making the purchase intends to put the whole forty acres into a peach orchard.

THE PRODIGAL'S RETURN.

The Seeding Southern Wing of the Christian Church Return to the Fold at the Conference Held in Indiana.

CHICAGO, Ill., Oct. 10.—A dispatch from Marion, Ind., says at the session of the Christian conference yesterday the Southern wing of the church, which seceded at the Cincinnati convention in 1854, was restored, the condition of return of the Southern wing to the church was agreed to by a formal and hearty greeting was extended to the erring brothers, while the conference was in session in the city of Chicago. A touching feature of the exercise was the introduction to the convention of Mrs. Dr. Sommerholtz, widow of one of the pioneers of the church, the first president of its college. Mrs. Sommerholtz welcomed the Southern delegates back to the fold, and assured them of the sympathy and hearty good-will of the North. There was scarcely a dry eye in the audience when the survivor of the convention of 1854 took her seat.

Dr. J. H. Duckworth, president of the general council of Christian union, declared that his sect was rapidly merging itself with the Christian church, and that hereafter his time and talents should be devoted to it.

EX-CONFEDERATES.
Fort Worth Veterans Asked to Come to the Front—Captain Richardson as Grand Marshal.

The following communication explains itself: DALLAS, Tex., Oct. 9, 1890.
Capt. J. C. Richardson, Fort Worth:
At a meeting of Camp Sterling Price of ex-Confederate veterans we were unanimously elected grand marshal for ex-Confederacy Day at the Texas state fair, November 1, 1890.

It is particularly desirable that a camp should be organized in Tarrant county before that day. With this purpose in view Gen. W. L. Cabell, Col. W. L. Thompson and myself will be at Fort Worth on next Thursday night. Will you have all the old boys together and let us have a good old-fashioned reunion? We will make a talk and organize the camp. Your friend,
PAUL WALTMAN.

The selection of Capt. Richardson to act as grand marshal of the day, is a compliment to a Fort Worth gentleman which all who know him will appreciate.

Capt. Richardson, mindful of the duty devolving upon him, desires to call a meeting of all ex-Confederates in Fort Worth and Tarrant county, to convene at the district courtroom in Fort Worth on next Saturday night, when he will make a speech to the desire of the Dallas people, at 7:30 o'clock.

THE HIGHER COURTS.
Synopsis of Decisions Rendered at the Present Term.

Supreme Court.
Correspondence of the Gazette.
TYLER, TEX., Oct. 9.—Sillberg vs. Trilling. On motion to strike out briefs. 1. Brief of appellant does not comply with the established rules of this court. Same will be stricken out and twenty days allowed to file new briefs. Motion sustained. Gaines, J.

WYNNE vs. State National Bank. On motion to dismiss writ of error. 1. The grounds of dismissal are not maintainable. Motion overruled. Gaines, J.

CRAWFORD vs. Doggers. On motion to dismiss writ of error. 1. The grounds of dismissal are not maintainable. Motion overruled. Gaines, J.

TEXAS AND PACIFIC RAILWAY vs. Kuleman. 1. The rule requiring briefs to be filed twenty days before the trial is called into effect until October 1, 1890. 2. Insufficiency of the facts of the case contained in briefs is no ground for striking out same. Motion overruled. Gaines, J.

W. B. Mann vs. A. Allen, from Anderson. On motion to dismiss. 1. In this case, though appellant's brief is not printed, the same contains only eight pages of legal copy, in accordance with the rules of this court. Motion refused. Wilson, J.

G. P. Witten vs. J. A. Caspary, from Wood. On motion to dismiss. 1. The rule requiring briefs to be filed twenty days before the trial is called into effect until October 1, 1890. 2. Insufficiency of the facts of the case contained in briefs is no ground for striking out same. Motion overruled. Wilson, J.

West Union Baptist Church vs. F. M. Hudson, from Anderson. On motion to dismiss writ of error. 1. Writ of error filed in court below November 10, 1889, and citation issued September 2, 1890. On October 10, 1890, the writ was dismissed by this court. Another writ was sued out October 10, 1890, and this writ is now before. Hold, the writ was sued out in time. Motion overruled. White, P. J.

W. B. and Margaret Langston vs. Isa Hammon, from Anderson county. On motion to dismiss. 1. The words "for the" instead of "in the" in the petition, as shown, have been evidently a clerical omission. The appeal bond is good. Motion refused. White, P. J.

Devenux vs. State National Bank, from Tarrant. On motion to strike out brief and dismiss appeal. 1. Because no briefs for appellant were filed either in this court or the court below, the appeal is dismissed. Motion sustained. Wilson, J.

Lewis Williams vs. the State, from Harris. On motion to perfect record. 1. The verdict as set out in the motion. The record, and to bring up a new perfect record would not avail defendant anything. Motion refused. Wilson, J.

Tarrant. Motion for leave to file transcript and briefs. 1. Having been needed by counsel for defendant in error, plaintiff in error will be allowed to file transcript and briefs herein at any time after first day of first assignment. Motion granted. Wilson, J.

Thousands of People Buy the celebrated Victor Coal for winter use. Thousands of people are prepared to furnish a kind or quality of coal at this market at the lowest prices. Telephone 205.
